

### INTRODUCTION

Other Options for Doctors is an independent career consultancy service for doctors and other healthcare professionals who are exploring alternative options outside of full-time clinical practice.

We are passionate about supporting medics who have career doubts but do not know what options are available, where to start, how to progress and whether this is the right time for change.

### WHERE DO I START?

Whether you know exactly, or rather unsure, what support you would like, the first step is to request your **“Career Discovery”** consultation.

“Career Discovery” consultation is a 50min call (Skype or phone), which will give you a greater sense of clarity when thinking through your options and next steps. You will also benefit from brief career advice and some practical tips tailored to your individual circumstances and challenges.

**“Career Discovery” consultation is £95, and it can be scheduled in the evening and on a weekend for your convenience.**

### WHAT OTHER SUPPORT IS AVAILABLE?

Below is a guide to our most popular services.
